

# KEEPING YOU MOVING

## GLASGOW QUEEN STREET TUNNEL CLOSURE

From 20 March 2016 – Re-opening 8 August 2016

Services to/from Glasgow Queen Street High Level will be diverted to Glasgow Queen Street Low Level station or Glasgow Central. This means journeys will take between 20-40 minutes longer.

**Queuing systems** will be in place, particularly at peak times and a one way system for accessing and exiting low level platforms will be in operation:

**Platform 8** - for trains to Milngavie, Helensburgh, Balloch, Stirling, Alloa, Perth:

- Enter the station/join queues via North Hanover Street
- Exit the station via Dundas Street

**Platform 9** - for trains to Edinburgh, Airdrie, Bathgate, Cumbernauld, West Highlands:

- Enter the station/join queues via Dundas Street
- Exit the station via North Hanover Street

There may be some exceptions to this arrangement, but station staff will guide you.

In addition, to accommodate diverted trains, there will be **changes to other services across the country**. Trains may be retimed and the final destination may be different from the train you usually get.

Please check your own journey – and its final destination - before travelling.

You can do this via the ScotRail app or our website:
